

New Europass

Angeliki Dedopoulou

Adviser to the European Commission for the Digital Labour Market

Europass framework

What is it?

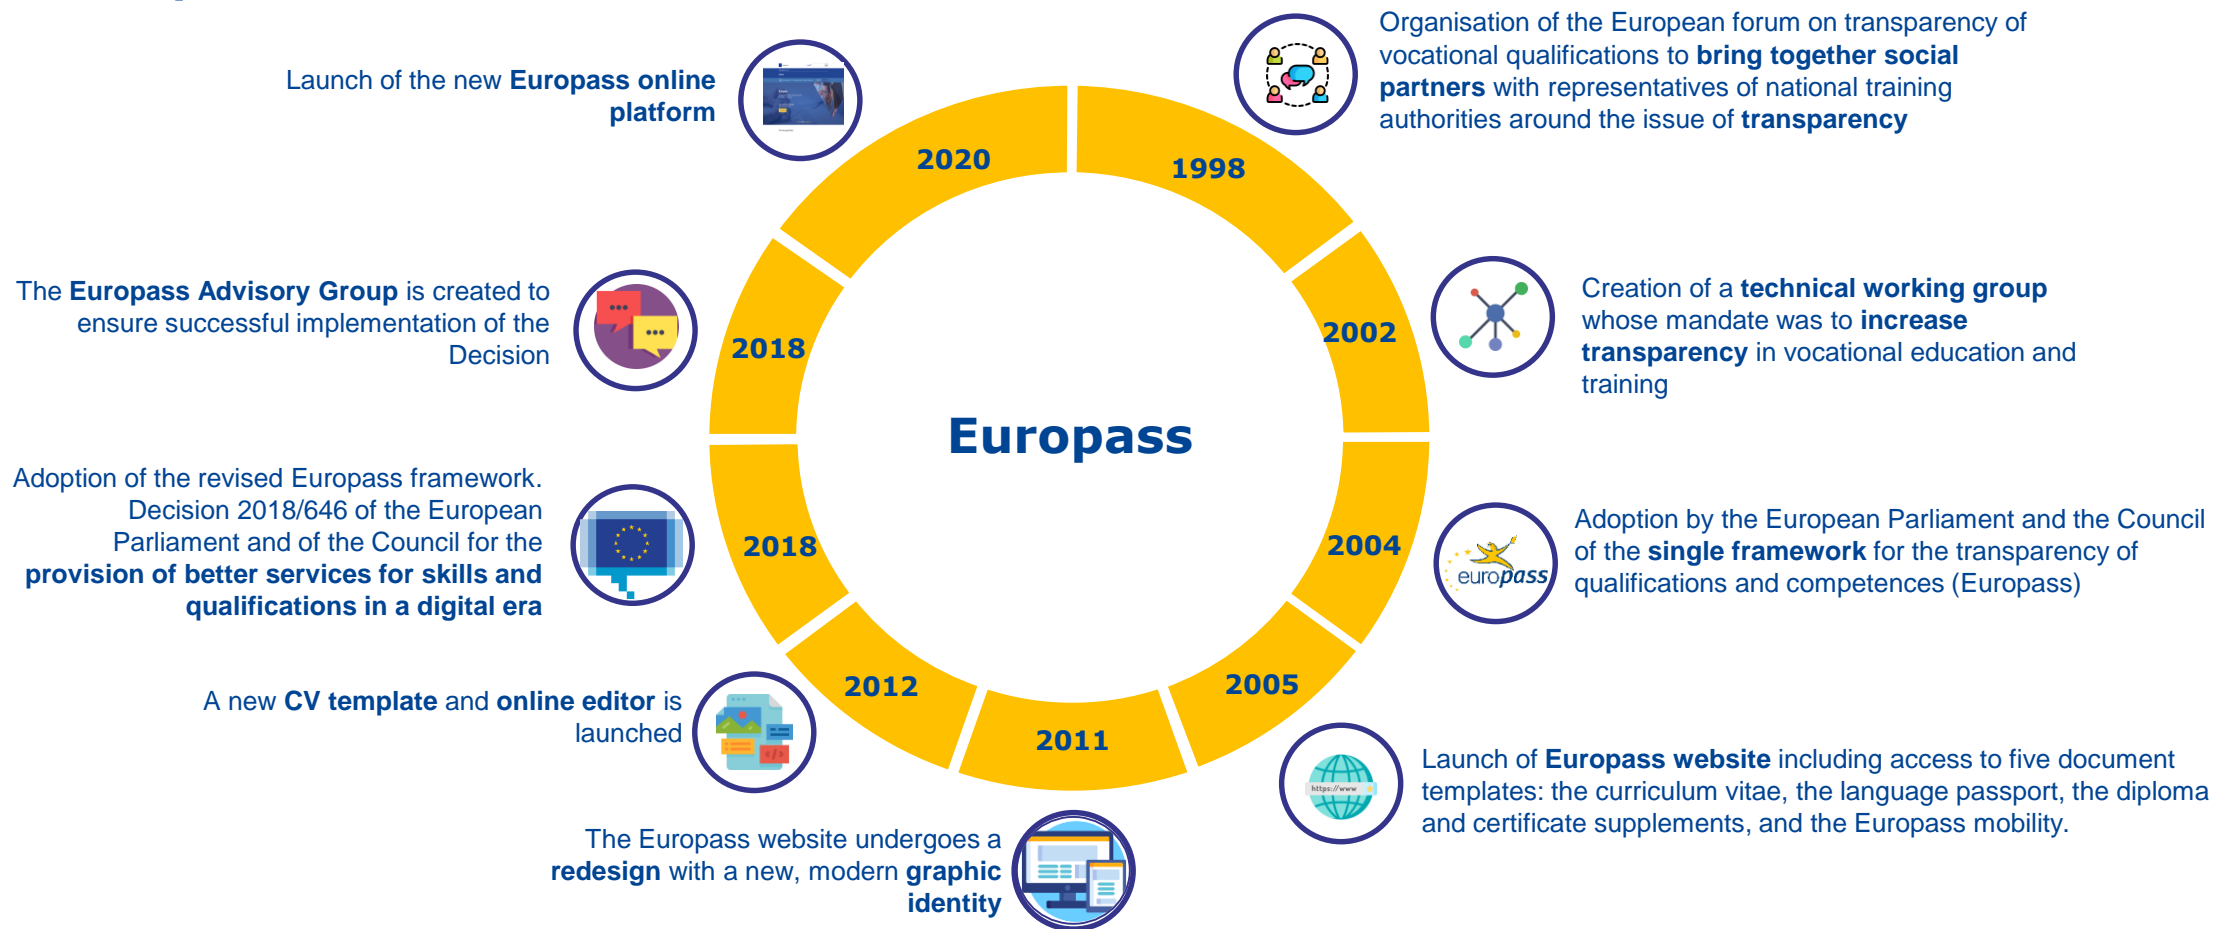

The Europass framework supports the **transparency and understanding of skills and qualifications** acquired in formal, non-formal and informal settings, including through practical experiences, mobility and volunteering.

Historic and policy perspective of the Europass framework

Historic and policy perspective of the Europass framework

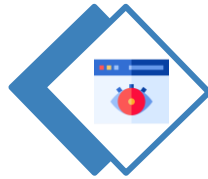

Europass timeline

Historic and policy perspective of the Europass framework

Some numbers

Since 2005*:

- *Record traffic in January 2019: 2,444,365 CVs created online (+17% compared to January 2018)*

Historic and policy perspective of the Europass framework

Current Europass vs New Europass

	Current Europass	New Europass
Platform	Set up and manage a Europass Internet-based information system	Provide an online platform that allows for: <ul style="list-style-type: none">• Documenting and describing skills and qualifications;• Assessment and self-assessment of skills; and• Accessing (links to) available information.
Key elements	Portfolio of documents.	Online platform with web-based tools .
Interoperability	The parts of the Europass information system should be fully interoperable with each other	Web-based tools shall support and ensure technical interoperability and synergies

Overview of the scope of Europass business analyses

Overview of the Europass business analyses

Scope & timeline

First business analysis

-  Identify **potential end-users** of the new Europass
-  Define **user and stakeholder requirements**
-  Formulate **recommendations** for the new Europass

February 2017

July 2018

Second business analysis

-  Propose a **framework for digitally-signed credentials**
-  Define the **Europass e-portfolio**
-  Delineate the scope of an **interoperability mechanism**
-  Identify and analyse tools for **(self-)assessment of skills**
-  Provide input on the overall **technical architecture** and define **user interface**

June 2018

June 2019

Third business analysis

-  Ensure a **career guidance perspective**
-  Support the **roll-out of the digitally-signed credentials**
-  Carry out a **data protection impact assessment**
-  **Enable interoperability** with external stakeholders
-  Develop a **communication and content strategy**

Overview

e-portfolio

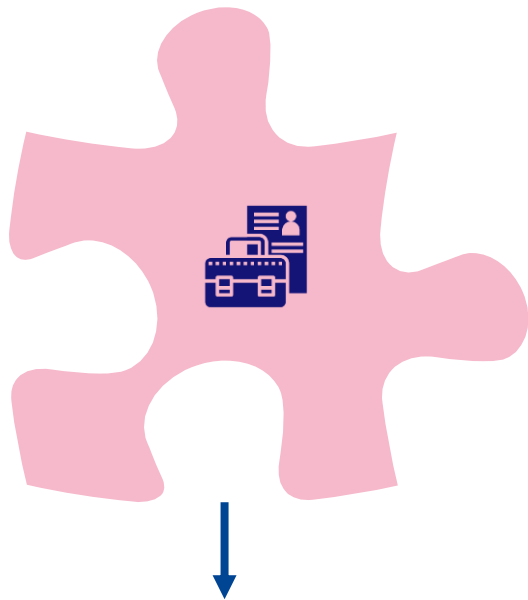

Information provision

Interoperability mechanism

Main components of the new Europass platform

e-portfolio

e-portfolio

Include a well-interconnected, comprehensive set of web-based tools

Be free-of-charge, secure, accessible and user-friendly

Made available in all EU languages

Ensure business continuity and re-use previously created content

Allow for a common understanding and consistent reference to qualifications, skills and occupations

Comply with data protection legislation

Serve as a rich source of data and skills intelligence

Main components of the new Europass platform e-portfolio

- Provide a **single entry-point** for a set of web-based tools;
- Create and manage a **personal profile** and **CV**;
- Create and edit documents such as **cover letters**;
- Define and keep track of **interests, goals and aspirations**;
- Provide suitable **learning and job opportunities**; and
- Prepare, submit and keep track of **learning and job applications**.

- Activity Feed

Main components of the new Europass platform

Information provision: information on skills and qualifications*

Learning opportunities

Qualifications and qualifications frameworks or systems

Services offering guidance for transnational learning mobility and career management

Recognition practices and relevant legislation in different countries, including third countries

Opportunities for validation of non-formal and informal learning

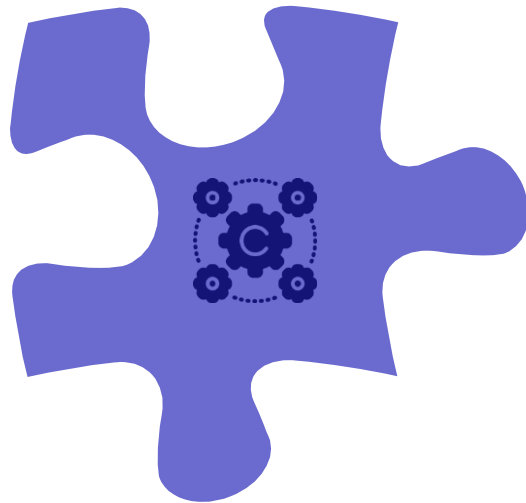

Information on skills and qualifications that could be relevant to the particular needs of third country nationals arriving or residing in the Union to support their integration

Skills intelligence as produced by relevant Union-level activities and agencies within their domains of competence

Main components of the new Europass platform

Interoperability mechanism

**Interoperability
mechanism**

Be free-of-charge, without commercial purposes

Comply with data protection legislation

Ensure that the ownership of data lies with end-users

It consists of collaboration services which will allow for the exchange of data on:

- Learning opportunities;
- Job opportunities from EURES; and
- Qualifications, skills and experience of individuals.

Main components of the new Europass platform

Interoperability mechanism

- **Provide streamlined exchange of data** amongst different actors;
- **Increase cooperation** amongst different actors; and
- **Enhance services offered to end-users.**

Re-use information on
qualifications, skills and
experience

Exchange information
on learning and job
opportunities

Submit and manage
learning and job
applications

Milestones

Europass main actors

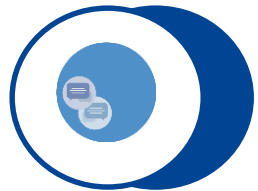

Europass main actors

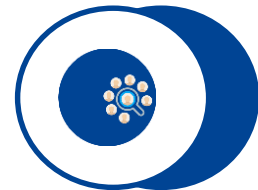

Target users

Individual end-users

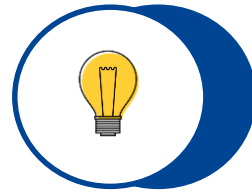

Facilitators

Recipients that receive and process information on skills, qualifications and experiences

Europass main actors

Role of Member States

Member States

- Coordinate the activities related to the **implementation of Europass web-based tools**;
- **Promote the use and strengthen the awareness** and visibility of Europass;
- **Promote and provide information on services** offering guidance for transnational learning mobility and career management;
- **Make information** on learning opportunities, qualifications and recognition practices **available** on the Europass online platform; and
- Involve stakeholders **from all relevant sectors**, and promote cooperation among public and private stakeholders in the activities under their responsibility.

Europass main actors

National Europass Centres

National Europass Centres

- **Provide support to end-users** and promote the documentation of skills and qualifications; and
- **Raise awareness of Europass** and provide the necessary information to interested parties.
