

Dear EURES National Coordinators,

EURES Estonia would like to invite EURES partners to participate in our third online job fair „Work in Estonia“ which will take place on **11th of November 2015 (11:00 – 14:00 CET)**

Online job fair „Work in Estonia“ will be a comfortable, easy and effective way for job seekers to take their first steps towards a possible career in Estonia – country with excellent living and working environment and good career opportunities.

Estonia is highly valued as a pioneer and innovator in the field of information and communication technologies. A number of major global enterprises operate in Estonia and many internationally recognised start-ups have started their journey here. ICT sector is one of the fastest growing industries in Estonia where hundreds of vacancies need to be filled in the nearest future. We have a very active and innovative start-up scene where attractive companies are offering challenging and rewarding job opportunities.

Online job fair gives a unique chance to get in touch with successful Estonian companies, chat directly with employers, apply for vacancies and even have an online interview. The strongest need for foreign talent in Estonia is in ICT sector - hundreds of high-profile experts are needed! Though, this years' focus is much broader – we count on participation of employers from different sectors, which means that besides ICT sector we welcome all employers who are in need of foreign talent, e.g. looking for engineers, customer support specialists etc. The aim of online job day is to **connect Estonian companies and international qualified jobseekers** that are interested in a successful career in Estonia.

Hereby we kindly ask you to **promote** our online for fair among potential **job seekers from your countries** in your online channels (website, social media and newsletters) as well in other possible channels. EURES advisers are welcome to take part at the event as well. Participating in the event will give your countries' job seekers the possibility to find more information about successful and quickly developing Estonian companies and their vacancies, chat online with the employers and learn about the living and working conditions in Estonia by talking to the local EURES advisers.

Please also share our Facebook event:
